Customize Your Play Set In Three Easy Steps!

Step 1

Choose your
Watch Tower

Step 2

Choose your
Swing Attachment

Step 3

Choose your
Accessories

Quality Standards

We begin with top quality, pressure treated pine, which is environmentally friendly and safe. Our lumber is dried and then molded to ensure a smooth surface and provide rounded edges for superior comfort. Everything is pre-drilled and assembled with specially coated screws to withstand many years of use. Your playset is then sprayed with top quality Sherwin Williams stain sealer. The little extra cost involved ensures you receive the best quality and maximum durability.

If the Playset is to be installed in a fenced area, a gate clearance of 1 foot wider than your Watch Tower is required. If your gate is not wide enough, we can build your Watch Tower on site for an additional 10% of your Watch Tower cost.

ULTRA POLY WATCH TOWER #P1

Our lumber is premium treated West Timber, featuring Woodguard Polymer Coated Lumber. It's 100% maintenance and splinter free! The benefits of coated lumber are endless, especially when it comes to playsets:

- Will not chip, crack, or peel.
- Lumber will not twist or warp.
- UV stabilized formula - will not fade in the sun.
- Polymer coating protects the lumber.
- Solid wood core provides a 100% structural product.
- Excellent cold weather impact properties below -20° F. It does not become brittle in cold weather.
- No harmful chemical treatments; safety tested for lead and phthalates.
- Non-toxic borate treatment protects against rot and termites!
- Maintenance free - no need to paint, seal, finish, or sand ever again!
- Easy clean up - spray with biodegradable cleaner such as Simple Green and rinse off.
